

Creating a "thriving store with a line"

Proposal of the optimal tool!

High-performance heaters for healers and estheticians

Heat-tech PRO

We had completed Super high-performance Heater by request of the medical specialist of heat treatment.

"I feel the heat
to the core of my body.
This feeling is irresistible!!"

~ Release the entire body in a short time! ~

Highly praised by esthetic salons and manipulative treatment doctors!

"I have tried various heat methods so far, but I've never seen anything that heat penetrate into the body in such a short time.'

More than 1,000 people in total experienced the exhibition demonstration

A surprising quick experience in about 15 minutes!

(1) Neck/shoulder/back stiffness (2) Frozen shoulder
(3) Back pain/knee pain (4) Numbness of hands and feet

(5) Fatigue of the entire body due to overwork / chronic fatigue

(6) Swelling of the lower half of the body

People who have been worried about these for many years get relieved in just 15 minutes of demonstration experience.

Heat therapy that can be done alone

"Heat-tech PRO" is made into the attached "dedicated cloth" (high-performance far-red negative ion sheet).

My husband is doing it, and I can easily put a heater on my back by myself.

~ The magic method devised by Dr. Kofukada of "Toyodo Treatment Clinic" ~

【Product Development Advisor】

Funabashi City, Chiba Prefecture "Toyodo Treatment Clinic" Acupuncturist Dr. Shuji Kofukada

★ "Easy heat that can be done alone" manual production supervision

[Comment]

As a tool for heat treatment performed at the treatment clinic, a heater with the highest level of perfection has been completed.

At our clinic, it is used as an important tool that is indispensable for treating patients.

《Importance of heat therapy》

"The common keyword for poor health is hypothermia"

As a management consultant, I have been working from all over the country to people with intractable diseases who have been told to give up because they will not be cured even if they go to the hospital, and that they will never be cured by the doctor, or "Even if they have such a hard time but undergo a detailed examination at the hospital, I can't get a doctor to take care of me just because there is no abnormality", and when I interviewed such a consultation in detail, the element common to all of them is actually [Cold of the body] .

"The human body is very simple"

If you drink clean water and chew" and "natural food full of energy", various "enzymes" contained in food or produced in the body acts as a catalyst, and the chemical reaction in vivo (atomic conversion in vivo) takes place, and the body can maintain a healthy body.

And just by impaired "normal body temperature", the "enzyme" does not work normally, and all the series of actions is inhibited, and the body is eroded.

Looking at this, you can see how serious the problem of "lowering body temperature = hypothermia" is.

Recently, as Dr. Yumi Ishihara's book "Warming the body always cures illness", more and more people are beginning to realize that "cold body" is the root cause of illness. Most people don't know the specific method of "dramatically improving in a short period of time."

"A professional high-performance heater is finally complete!!]

This time, we have researched several heaters on the market, commercialized a professional "high-performance heater" that exceeds them, and as a result of having more than 5,000 people experience heat in total at exhibition halls around the country, it is very incredible. There have been many responses.

We originally have a wonderful power of "self-healing ability" in our bodies.

Hyperthermia therapy is a wonderful health device that can awaken your self-healing ability with the power of heat, so that your hypothermic body can get healthier in a short time.

"Heat therapy" + "detoxification" is the best combination

If you return the body temperature to normal with a heater and at the same time "detoxify" foreign substances in the body, such as "harmful heavy metals" and "chemical substances (food additives, medicines, etc.)" outside the body, the metabolic function will work properly.

If harmful heavy metals and chemical substances continue to accumulate in the body, they will interfere with the normal functioning of biological functions, resulting in "no matter what you use from health devices or what health foods you drink, you will not be energetic or unable to diet".

Therefore, in order to create the right environment for the normal functioning of the body,

The combination of (1) heat therapy and (2) detox is very important.

Suggested retail price (excluding tax)

• Set of 2 pieces S\$ 3,360 • 1 piece S\$1,680

★ For more effective heat infusion, for business purposes

Please be sure to use it in a set of two.

As a result, [Significant improvement of experience and Reduction of treatment time] is possible.

【Specification】

Materials	Flame retardant ABS plastic (DC12V 30W)
Heating surface	Far infrared radiation ceramic plate
Heater	Silicone rubber surface heater (DC12V 30W) / with thermostat
Temperature Switching	High temperature (4 levels) / low temperature (3 stages) can be switched
Timer	30 min/60 min Power automatic OFF
Size	L205mm×W66mm Weight 233g
AC Adapter	Input AC100V~240V Output DC12V 4A PSE
Far Red Minus Ion Sheet and head cover	More than 10 kinds of ceramic powders are applied to the surface of cotton cloth using special technology. ※ In the case of [2-unit set for business use], 2 sheets each

Carry Case	Made of cloth (cotton)
「Instruction manual / warranty card」 & "Easy heating manual that can be done by one person"	

* Other • "Thermal facial esthetic" manual included

【Features of "Heat-tech PRO"】

1. By special ceramic

Hormesis effect (*) + **Far infrared effect**

→ Heat injects to the core of the body → **Greatly improves immunity**

Radium from Tamagawa Onsen in Akita is said to have a "**hormesis effect**" in a ceramic plate **Ore powder "Yuhana powder"** and "**pegmatite ore powder**" with far-infrared effect

By kneading, it is possible to penetrate heat deep into the body.

(※) [**Hormesis effect**] is the effect of activating the function of the body by receiving ultra-weak radiation (★).

Refers to

★ Actual measurement value of "**Heat-tech PRO**": 0.26 microsieverts/hour → 0.2847 mSv/year or less even when used three times a day
Sieverts/annuity and less than about 1/3 of the safety standard in Japan (1 mSv/year or less)
Ultra-safe level

2. Professional "high temperature" level setting available

Capable of heat levels used in the field of the therapist (switching between "hot" and "cold")

3. Accessories high efficiency far red negative ion sheet

**Far-red
effect**

+

Massive negative ionic action

→ **Promotes blood flow and restores autonomic nervous system balance, greatly improves → immunity**

Generates **an astonishing large amount of negative ions** with a far-infrared emissivity of about **87% and a maximum of about 70,000**

By utilizing "special sheets", it is possible to increase the **thermal effect and speed up blood flow** (*).

can

(※) **【Speed up blood flow】** . . . The improvement can be confirmed by the blood flow observation microscope "Vascular Beauty"

4. "Special ceramic chip" eliminates harmful electromagnetic wave damage

Harmful electromagnetic waves (dangerous areas) of about 4~5mG generated from the equipment are used by various devices of the body, including immunity.

Gives minus the doughmage to the noh. On the other hand, a **"special ceramic sheet" that responds to harmful electric waves that enhances biological functions** is built into the device.

Measurement data with a wave measuring instrument is out!

*Significant increase in change rate of
60% due to heating therapy*

This time, we measured the effect of "Heat-tech PRO" on the living body using the LFT wave measuring device. The result of **"60% improvement rate"** is that the power of this professional high-performance heater.

Item	"H-T PRO" before use	30 minutes after using "H-T PRO"	Change Value

【Measurement date: 2011.7.13】 [Subject: Female (41 years old)]

[Measurement method: Measurement of urine before use of "Heat-tech PRO" and 60 minutes after use for 30 minutes and comparison of data]

【Comment】

Observing this measurement based on wave theory, the items marked are items that the subjects themselves usually feel "painful **subjective symptoms**", and by performing hyperthermia for only 30 minutes, including these items, ★ all **items with low values are quickly increased to the level value of a healthy body**. I understand that it does.

In other words, it can be read that "heat therapy" has the effect of revitalizing all the weakened parts of the person's body.
