Nano-sized PDS particle technology

Sebum-dissolving technology

It is surprising how few hair growth products have targeted women in the conventional market until now.

Relaskin is highly recommended for women who...

- Are concerned about increased hair thinning or loss lately.
- Are worried about thinning specifically at the crown of the head.
- Feel their hair is getting finer and losing its volume.

Relaskin was developed with the core concept of "Revitalizing the scalp, roots, and hair itself." It is designed to effectively address common concerns for women, such as thinning hair, hair loss, and graying.

A relaxed scalp means awakened vitality. This creates the perfect environment for healthy hair to grow.

IMPORTANT:
Relaskin must be used in combination with its sister product, "Shampoo - Aroma Fragrance."

It's More Than Just Hair

Experience the power of our hair growth serum through these real-life transformations.

Before

After 3 month

※Results may vary depending on the individual.
